LANE RESTRICTIONS FOR THE WEEK OF JULY 28, 2008

MADISON COUNTY

- I-70** Daytime lane restrictions will be encountered along eastbound and westbound I-70, north of Troy. These lane restrictions are necessary for painting the structures carrying I-70 over Wendell Branch and the structure carrying Staunton Road over I-70. All lanes of I-70 will remain open westbound between the hours of 6:00 a.m. to 9:00 a.m. and eastbound between the hours of 3:00 p.m. to 6:00 p.m. Work on this project is expected to be completed by August 15, 2008.
- I-270** A highway lighting rehabilitation project will take place on Interstate 270 from the Missouri end of the Mississippi River Bridge to the Illinois Route 3 interchange. More than 100 light poles will be replaced including all of the light pole foundations on the Mississippi River Bridge and the Canal Bridge. In order to minimize the inconvenience to the traveling public, **no** lane closures will be permitted in the eastbound lanes from noon to 8 p.m., and **no** lane closures will be permitted in the westbound lanes from 6 a.m. to 6 p.m. The contract should conclude by the end of November, 2008.
- IL 3** A lane restriction will be encountered along southbound Illinois Route 3 at Bissell Avenue in Venice. Work should be completed by September 12, 2008, weather permitting. This lane restriction is needed to construct a right turn lane into the Tri-City Port District facility at Bissell Avenue.
- IL 3** Intermittent lane closures on IL 3 in Godfrey and Alton will occur at the following three locations: from Pierce Lane to West Delmar, from Godfrey Road to Alby Street, and from Bloomer Drive to North Rodgers. These lane closures are necessary to patch and resurface the pavement. It is estimated that the project will be completed by the end of July.
- IL 140** Daytime lane restrictions will be encountered on IL 140 from Brakhane Road to Quercus Grove Road near Carpenter. These lane restrictions are necessary for shoulder removal and replacement and flashing beacon installation. The work on this project is expected to be completed by July 31, 2008.
- IL 140** One lane of IL 140 will be closed approximately 4 miles west of Hamel. Two-way traffic will be guided through the work zone using temporary traffic signals and traffic control signing. The lane closure is necessary to reconstruct the existing bridge carrying IL 140 over Cahokia Creek. Work is expected to be completed by late Fall, 2008.

IL 162 Periodic lane closures may be encountered for the five lane construction of IL 162 from east of I-55/70 to U.S. Rte. 40 in Troy. The work will include widening and resurfacing IL Rte. 162 to five lanes from Formosa Road to west of downtown Troy, milling and resurfacing IL Rte. 162 in downtown Troy, and resurfacing, shoulder widening, and drainage improvements on IL Rte. 162 from North Dewey Road to U.S. Rte 40. This work is expected to be completed and ready for traffic by December, 2008.

ST. CLAIR COUNTY

Piggot Ave. Ramp The ramp from Piggott Avenue onto eastbound I-55/70/64 will be closed for deck repairs utilizing the marked Seventh Street detour in St. Louis, Missouri. This ramp is expected to be completed and opened by October 31, 2008. The project consists of replacing the existing concrete deck overlay and performing structural steel repairs to the bridge. Marked detours will be established to aid the motorists during this ramp closure.

I-255 A lane restriction will be encountered along both north and southbound I-255 at the Cahokia Canal, just south of Illinois Route 162, from mile marker 28 to mile marker 29 beginning Wednesday, July 16, 2008. Work should be completed by September 26, 2008, weather permitting. This lane restriction is needed to replace expansion joints on each bridge.

IL 13/15 Motorists traveling on Illinois Route 13/15 will encounter lane shifts east of Green Mount Road. These lane shifts are necessary to move traffic to portions of the newly constructed lanes so that the construction of a four lane divided highway can advance to the next stage. Intermittent daytime lane closures will still be in effect on Illinois Route 13/15 from Green Mount Road to Rogers Drive in Freeburg. The project is expected to be completed by the Fall of 2008.

IL 158 Lane restrictions will be encountered along Illinois Route 158 from I-64 to Illinois Route 161. Work should be completed by December 19, 2008, weather permitting. These lane restrictions are needed to complete pavement repairs.

IL 159 Intermittent shoulder restrictions will be encountered along northbound and southbound IL 159 just north of I-64 near Fairview Heights, weather permitting. These shoulder restrictions are necessary for painting the structure carrying IL 159 over the CSX Railroad. Work on this project is expected to be completed by August 1, 2008.

IL 159 Intermittent shoulder restrictions will be encountered along northbound and southbound IL 159 just south of Collinsville, weather permitting. These shoulder

restrictions are necessary for painting the structure carrying IL 159 over the Consolidated Railroad and Canteen Creek. Work on this project is expected to be completed by August 1, 2008.

IL 159 Lane closures may be encountered on Illinois Route 159 north of Frank Scott Parkway in Fairview Heights. Construction activities are anticipated to be completed by July 31, 2008. The lane closures are needed to construct a southbound right turn lane, intersection improvements, and drainage upgrades for the Target Development.

BOND COUNTY

IL 143 One lane of Illinois Route 143 over Beaver Creek, approximately 2 miles west of Illinois Route 127, will be closed to traffic. Temporary traffic signals will control one-way traffic through the work zone. This lane reduction is necessary to replace the existing bridge beams. Work on this project is expected to be completed by December, 2008.

CLINTON COUNTY

OLD U.S. 50 The bridge carrying Old U.S. Route 50 over Sugar Creek will be closed to traffic. This closure is necessary to completely remove and replace the structure approximately 1 mile west of Aviston. A marked detour route will be in place to guide traffic around the closure utilizing Russland Street to New U.S. Route 50 to Illinois Route 160. Old U.S. Route 50 is expected to be re-opened to traffic no later than December 1, 2008.

MONROE COUNTY

IL 3 Lane restrictions will be encountered along Illinois Route 3 from Gilmore Lake Road to Moore Road near Waterloo in Monroe County. Work should be completed by July 31, 2008, weather permitting. These lane restrictions are needed to complete pavement repairs. All northbound lanes will remain open between the hours of 6:00 A.M. and 9:00 A.M. and all southbound lanes will remain open between 3:00 P.M. and 6:00 P.M.

OLD IL 3 Old Illinois Route 3 over Hill Lake Creek between Columbia and Dupu in Monroe County will be closed. A marked detour utilizing Interstate 255 will be in place to move traffic around the closed section. The required work includes the removal and replacement of a single bridge and is expected to be completed by August 1, 2008.

OLD IL 3 Lane closures may be encountered on South Market Street (Old Illinois 3) south of Illinois Route 156 and north of Illinois Route 3 in Waterloo. Construction activities are anticipated to be completed by September 1, 2008. The lane

closures are needed to construct a turn lane, intersection improvements, and drainage improvements for the new Waterloo High School.

RANDOLPH COUNTY

IL 3 There will be intermittent daytime lane closures on Illinois Route 3 from Riverview Boulevard in Chester to the Randolph/Jackson County line. These lane closures are necessary to patch and resurface the pavement. Please watch for stopped traffic and allow extra time when traveling through the work zone. The work should be completed by the Fall of 2008.

WASHINGTON COUNTY

I-64 Lane restrictions will be encountered along eastbound and westbound Interstate 64 from west of the Hoyleton Road overpass to the Jefferson/ Washington County line (mile marker 52 to 62). Lane restrictions will be in place during both daytime and nighttime hours, weather permitting. These lane restrictions are necessary to resurface the roadway, and work is expected to be completed by November 15, 2008.
